OBJECTIVE

Motivated Computer Science undergraduate with hands-on experience in cross-platform development using Flutter and full-stack web technologies (Node.js, Firebase). Proven ability to design responsive UIs in Figma and convert them into scalable applications. Seeking a Cross Application Developer role to build high-performance mobile and web solutions.

EDUCATION

- UNITED INSTITUTE OF TECHNOLOGY, PRAYAGRAJ** **2023-Present**
Bachelor Of Technology, Computer Science & Engineering (AI/ML) **7.0 CGPA**
- Smt Phool Pati Devi Inter College, Bamrauli**
12th Standard | 2023 | UP Board **86%**
- Smt Phool Pati Devi Inter College, Bamarauli, Prayagraj**
10th Standard | 2021 | UP Board **63%**

WORK EXPERIENCE

- IEEE Chairperson UIT Students Chapter (January 2026-Present)**
- Secretary - United Student Club (October 2025-Present)**
- Lead Coordinator - FOSS UNITED - UIT Students Chapter (August 2025-Present)**
- Research & Design Lead, FlutterFlow Developer Group- Prayagraj (June 2025-Present)**
- Trainee & Intern, Edufabrica.Pvt.Ltd (Aug-Sept 2024)**
 - Gained comprehensive skills in full-stack web development through dedicated learning and a hands-on 1-month training internship.
 - Learned HTML, CSS & JS as a frontend and NODE.JS as backend.
 - Learned DATABASE MANAGEMENT using MySQL.

PROJECTS

- Web Chat App (In-Progress)**

A real-time messaging platform supporting secure multi-user chat rooms and instant message delivery via web sockets. Performed Figma to UI conversion to build clean, responsive chat interfaces and user flows.
Tech Stack: Node.js, Express.js, Socket.io, Firebase Auth, HTML, CSS3.
- AI Communication Coach**

An AI-powered platform for real-time interview simulations and framework-based coaching, facilitating 3,000+ practice sessions. Translated Figma designs into interactive, scalable UI components for coaching workflows.
Tech Stack: HTML, CSS3, JS, React, OpenAI API, GEMINI API.

SKILLS

Languages: Dart, JavaScript, Python, HTML/CSS.
Frameworks & Libraries: Flutter, Node.js, Express.js, Socket.io.
Databases & Backend: Firebase, MySQL, REST APIs.
Tools: Figma, Git/GitHub, VS Code.
